My proposed manifestoes for the office of Secretary, International Affairs, Nigerian Institute of Quantity Surveyors (NIQS)

In line with the requirements of the office and the fundamental objectives of the NIQS, the following are my proposed manifestos,

1. Keep tabs on annual program of international professional organizations and make available for members' planning purposes.
2. Assist in facilitating visa application and processing for members willing to attend international conferences/workshops.
3. Create deeper visibility for the Institute in the eyes of other regional and national professional associations.
4. Stimulate reciprocal affiliation with other international professional associations for the promotion of members' interest.
5. Optimise members benefit from the Institute by increased knowledge sharing of professional materials presented at international conferences/workshops.
6. Encourage members to partake in paper presentations at international workshops/conferences especially those in the academia.
7. Maintaining and enhancing close contact with regional and international associations of Quantity Surveyors and the built environment professionals for the promotion of professional matters beneficial to our members.
8. Participate in the organization and attendance of regional and international conference/workshop on professional issues of interest for the benefit of our members.
9. Stimulate and promote the standardization of professional practice in line with international standards by sourcing and sharing information on latest trends and innovations in professional Quantity Surveying practice.
10. Assist the President and the National Executive Council in the discharge of any international professional assignment that promotes the interest of the profession and the Institute.
