## O! How Time Flies

There is a time for everything, and a season for every activity. Another milestone has been attained in the history of the Institute. Time has brought to an end the 2023-2025 National Executive Council (NEC) of the Nigerian Institute of Quantity Surveyors (NIQS). November 25 2023, marked the beginning of the tenure of the 2023-2025 NEC with the investiture of QS Kene Christopher Nzekwe, FNIQS as the 27th President of the Institute. Shortly before Christmas in 2024, our customer of 3 years wanted to resell her 3-bedroom maisonette in Katampe. She had bought it from us in February that year for ₦62M. Within that time, her child gained admission to study in one of the universities in London, and she needed money for her tuition before March 2025. She only hoped to recoup her investment since it had been barely 8 months since she bought her home.

By February 2025, she had received 4 offers north of ₦72M. That's about 15% more than she bought it. She eventually sold it to the highest bidder, walking away with a tidy profit. That's yet another proof of how our affordable pricing helps our customers to make more profit.
